## TG DISHWASHER DETERGENT WITH CHLORINE

LIQUID DISHWASHER DETERGENT WITH CHLORINE - ALSO FOR ALUMINUM

tem no.: LJK276-10 TG Dishwasher Detergent with chlorine for aluminum, 12 kg.  
Item no.: LJK276-20 TG Dishwasher Detergent with chlorine for aluminum, 24 kg.

**EXCELLENT FAT DISSOLUTION**

**PREVENTS PROTEIN BUILD-UP**

**SUITABLE FOR BOTH SOFT AND HARD WATER**

**ALSO FOR ALUMINUM AND GALVANIZED SURFACES**

### APPLICATION:

TG DISHWASHER DETERGENT with chlorine is made using the latest technology and is of the highest quality. Liquid in consistency, it is designed for dishwashing in industrial dishwashers with automatic dosing, where high concentration and very effective performance are required. TG DISHWASHER DETERGENT with chlorine also contains a limescale binding system, which prevents limescale deposits in the dishwasher, in addition to being an excellent fat dissolver and preventing the build-up of proteins on dishes.

### INSTRUCTIONS FOR USE:

pH-value concentrated approx. 14.0

No perfume.

Connection to automatic dosing system.
