

TG DISHWASHER DETERGENT WITHOUT CHLORINE

**POWERFUL DISHWASHING -
ENVIRONMENTALLY FRIENDLY ALTERNATIVE TO CHLORINE**

Item no.: LJK275-10 TG Dishwasher Detergent without chlorine for aluminum, 12 kg.

Item no.: LJK275-20 TG Dishwasher Detergent without chlorine for aluminum, 24 kg.

SWAN-LABELLED POWERFUL LIQUID DETERGENT

EFFECTIVE FAT AND PROTEIN DISSOLUTION

SUITABLE FOR BOTH SOFT AND HARD WATER

ALSO FOR ALUMINUM AND GALVANIZED SURFACES

APPLICATION:

TG DISHWASHER DETERGENT without chlorine is manufactured using the latest technology and serves as an alternative when chlorine cannot be used. Liquid in consistency, it is intended for dishwashing in industrial dishwashers with automatic dosing, where high concentration and effective performance are required. Effectively removes fats, dried food residues, and color stains, and has a generally high dissolving power. TG DISHWASHER DETERGENT without chlorine is also suitable for aluminum and galvanized surfaces and is used in all industries, for example: Food companies, hotels and restaurants, canteens, and public institutions.

INSTRUCTIONS FOR USE:

pH-value concentrated approx. 14.0
Suitable for both soft and hard water
No perfume
Can be used in all types of dishwashers
Connection to automatic dosing system
